Email us: info@cgdp.org.sg. Or visit our website at www.cgdp.org.sg.

PARTICIPANTS DETAILS

Name		◯ Dr ◯ Mr ◯ Mrs/Ms	
Clinic/Institution		DCR (For Singapore Dentists Only)	
Mailing Address			
Postcode		State/Country	
Contact Number		Complimentary Halal food will be provided.	
Email			
CGDP Member	◯ YES	◯ NO	

◯ I am interested in becoming a CGDP member. Please email me the membership form.
Alternatively, please register online at www.cgdp.org.sg

Member's rate apply only for current membership. Please renew via www.cdgp.org.sg or by cheque.
Ordinary / Accredited member : Entrance Fee: $150. Annual subscription : $50
Student member : Entrance Fee : Waived. Annual subscription : $25.

REGISTRATION FEES

	CGDP Member	Non CGDP Member
Lecture 1 : 10 October 2018 (Wednesday)	◯ 60	◯ 100
Lecture 2 : 14 November 2018 (Wednesday)	◯ 60	◯ 100
Lecture 3 : 19 December 2018 (Wednesday)	◯ 60	◯ 100
Lecture 4 : 9 January 2019 (Wednesday)	◯ 60	◯ 100
Attending all 4 Lectures	◯ 200	◯ 300

REGISTRATION POLICIES

Registration is on a **first come first served basis** and will be valid only **upon full payment**. CGDP reserves the rights to amend any part of the programme without giving prior notice and to cancel or postpone the series, change the venue and date and time of the event. There will be **NO** transfers and refunds for cancellations once registration has been confirmed

VENUE - SHAW FOUNDATION ALUMNI HOUSE BASIL ROOM (NUS) - 6.30PM TO 9.30PM

11 Kent Ridge Drive, Singapore 119244

College of General Dental Practitioners Singapore is proud to present

Proficiency in General Dentistry: For the Advancement of General Dental Practice

This series of lectures bring together prominent dentists who will share their experience and knowledge in their areas of expertise. They will focus on the fundamental aspects of diagnosis and treatment planning while presenting relevant clinical cases. Participants will learn practical and helpful tips that they can apply the very next day. Attendance is strictly limited to a maximum of 60 participants only to maximise interaction and learning. Each session is designed to be short and impactful.

Schedule for the lecture:

6:30 pm	Registration and dinner
7:00 pm	Lecture Part I
8:00 pm	Break
8:15 pm	Lecture Part II
9:15 pm	Question and answer session
9:30 pm	End

Limited attendance for only 60 participants. Please register early to avoid disappointment.

Participants who sign up for all 4 lectures will receive a special discount.

CGDP Proficiency in GP Lecture Series (Oct 2018 - Jan 2019)

Shaw Foundation Alumni House Basil Room (NUS)
6.30pm to 9.30pm

Lecture 1 : 10 Oct 2018 (Wednesday)
Practical Evidence Based Management of Peri-Implantitis

Dr Benjamin Tan

Tarnow (J Dent Res 2016; 95;1: 7-8) opined that at least 10% of all implants placed this year is likely to develop peri-implantitis over the next 10 years. With the number of implants being placed increasing every year, the need for periodontal treatment on implants is expected to go up exponentially. The evidence for the best strategy for the management of peri-implantitis is unfortunately still inconclusive.
In this presentation, Dr Tan will share what he feels is a practical strategy using best available evidence from the literature. This lecture will include clinical pointers on managing the soft tissue surgical flap around the failing implant.

Lecture 2 : 14 November 2018 (Wednesday)
Manage Medical Complexities and Bisphosphonate Concerns in a GDP with "AKUMA". Do you dare to care?

Dr David Lim

The number of elderly in Singapore will double over the next 15 years. As GDPs, we will be facing more medical complexities whilst tackling dental problems. Here are some facts that GPs should bear in mind. With these knowledge, patients will become confident of your expertise, trust your decisions more and be drawn to your practice more.

- What are the common medical conditions seen at the GDP and pitfalls that can happen?
- How to understand patient's medical profile quickly and efficiently?
- What are the proven ways to manage these conditions?
- What other adjuncts to manage medical conditions can we incorporate to enhance the average practice?

Lecture 3: 19 December 2018 (Wednesday)
Surgical Removal of Lower Wisdom Tooth: Step by Step Approach

Dr William Choo

Surgical removal of lower wisdom tooth is the most common surgery done in your daily dental practice. It is also one of the most daunting surgery to be done by young graduates who have lack of confidence or practice. Mastering the technique takes time and with lots of practice and guidance but it can be done easily. Knowing when to refer to our specialist colleagues is the key to prevent any complaints from dissatisfied patients.
This step by step approach for surgical removal of lower wisdom tooth will try to refresh the concept of surgery. With video of live surgery, this lecture hopes to help those starting out in surgery gain some practical approach to it. Every situation is different but by going through the basic concept, the surgery can be done with higher confidence.

Lecture 4 : 9 January 2019 (Wednesday)
Shades of White: Teeth Whitening and Management of Stains

Dr Kelvin Chua

Teeth colour is one of the 3 pillars of dental aesthetics. In this lecture, we will be covering on how we can manage patients who are concerned about their teeth colour. Advantages and disadvantages of different whitening options like in-office and take home whitening will be discussed. In addition, a growing number of patients are interested in treatments that provide more than simply whitening the shade of their teeth. In this lecture, we will also be covering other treatment options that enhance our armamentarium to provide a nicer set of smile.
